Delaware North has completed a major renovation at Mindil Beach Casino Resort, pouring more than $35 million into the Darwin property since 2019 with a further $55 million flagged.

Mindil Beach Casino Resort is the Northern Territory's largest hospitality sector employer with 700 local staff.

General Manager of Mindil Beach Casino Resort Brad Morgan said the latest round of upgrades reinforced Delaware North's long-term commitment to the Northern Territory and was about continuing to lift the experience for guests to the Mindil Beach Casino Resort in the areas that mattered most.

The major renovation program has delivered significant upgrades across key guest areas.

The most recent works include the complete refurbishment of all rooms in the resort's beachside hotel tower, along with upgrades to the lobby and Infinity pool change rooms.

This further enhances the experience across some of the property's most highly used spaces.

The renovation also includes the full refurbishment of The Vue café, Bar and Lounge.

Along with this is a refreshed food and beverage offering for patrons.

The upgrades are the latest phase of a broader investment program by Delaware North.

Earlier works have included upgrades across accommodation and public areas, enhancements to food and beverage venues, and critical improvements to infrastructure and operations.

This includes kitchen upgrades, pool works, and significant investment in back-of-house systems such as airconditioning, IT, and surveillance, supporting the ongoing performance and reliability of the resort.

"The refurbishment of the beachside tower rooms, lobby, pool facilities and The Vue Café, Bar and Lounge is a really important step forward for the property," Mr Morgan said.

"It builds on a broader program of investment we've been delivering over a number of years, focused on making sure Mindil Beach Casino Resort continues to evolve as a leading destination for both locals and visitors to the Territory," he said.

"The investment reflects Delaware North's long-term vision for the property and for tourism in the Northern Territory more broadly, with a continued focus on strengthening operational capability and supporting sustainable growth."

Looking ahead, Delaware North is exploring the potential to invest a further $55 million into Mindil Beach Casino Resort, with future upgrades expected to deliver additional economic benefits to the Territory.

"Beyond the resort itself, this level of investment creates real flow-on benefits for the local economy," Mr Morgan said.

"From job creation through to supporting local suppliers, it's an important part of how we contribute to the Territory more broadly," Mr Morgan said.

Since 2019, Mindil Beach Casino Resort has also maintained a strong focus on supporting the local community, contributing approximately $2 million to charities, partnerships, and sponsorships across the Northern Territory.

This includes support for more than 100 local organisations spanning sport, culture, and community initiatives, as well as partnerships with groups such as Waratah Football Club, the Humpty Dumpty Foundation, Darwin Turf Club and Motorsports NT.
